Education

ABES ENGINEERING COLLEGE
B-TECH,
Major – Electrical & Computer
Minor – Data Science
2024

Skills

C, C++, Python

UI/UX design

- Figma

Frontend Development

- Javascript
- React
- Tailwind UI
- Next UI

Open Source Contributor

- Git&Github

WEB3

- Solidity

Graphics Designing

- Adobe Illustrator
- Adobe Photoshop

Video Editing

- Adobe Premier Pro

Experience

UI/UX DESIGNER IKNOWSPOTS,
Feb 2024

As an intern UI designer, I have worked on a diverse range of projects involving both Web3 and Web2 UI designs. I created intuitive and visually compelling interfaces, leveraging tools like Figma for prototyping and design. Collaborated with development teams to ensure designs were implemented accurately and efficiently.

FRONTEND WEB DEVELOPER ELIXIR TECH COMMUNITY
Part Time, May 2023

I have played a key role in building and enhancing their website. My contributions include implementing responsive designs and ensuring a seamless user experience using technologies like React and Tailwind UI.

Projects

FundMe

Web3 – Solidity, Hardhat, EtherJs, Javascript, Tailwind

A Blockchain-based project for managing funds with flexibility to securely lock and withdraw cryptocurrency. Integrated the contract's ABI into the front end, ensuring seamless interaction between the UI and the smart contract. Gained valuable hands-on experience with Solidity and Web3 development through this project.

Netflix – Login

React, Javascript, Tailwind, Firebase

Developed a Netflix-inspired login and signup page using React, incorporating Firebase Authentication, and Storage for robust user management and data handling. Implemented secure user authentication. This project sharpened my skills in integrating third-party services and building scalable web applications.
